## *4-week & 6-Week Blended Learning Course*

Our 85-hour state approved program is the first in the area to offer students their certified nurse's assistant training with the flexibility of online learning in an engaging Hollywood-quality course. In addition to virtual lectures, students will be introduced to "Residents." The 40 hour online course tells the "story" of a newly hired CNA, preparing students for the emotional rewards and challenges of working in healthcare. The online portion can be viewed any time of day, and as many times as necessary to understand the content. Students can expect to spend about 2 hour online per day learning for the first three weeks of the course. Week four of the course, students are required to have 19 hours of hands on, in-person training with instructors in our skills lab. This will be followed by 16 hours of clinical practice in a skilled nursing facility.

## *Requirements* (ACCOMODATIONS MAY BE MADE UPON REQUEST)
